EG-138

* Bandit Tail

Bandit Tail is a new hot "pike-catching machine" from Strike Pro. Very easy to use and can't be fished wrong. Slow sinking and excellent side-to-side action. The added attraction of a soft plastic tail plus the slight rolling of the bait at the end of each glide produces an incredible action and belly flash. On the pause the replaceable tail continues to flutter generating a life-like triggering mechanism. The Bandit Tail can be worked fast or slow. When cranking, it presents a wide sweeping action in the water. Excellent for pike and other predators all season long!

* Gill Raker

Strike Pro continues to lead the way in lure design with the new Gill Raker lure. This 11cm lure imitates perfectly many types of small baits that Freshwater and Estuary species prey upon. A bibless multi-jointed lure with rubber fin and tail and lifelike eyes, red gill plates and superb action, the Gill Raker will be a success in fishing many waters throughout the world. A perfect bait imitation combined with the re-know Strike Pro finish the Gill Raker both looks real and swims like a real bait. Predators will find this lure irresistible indeed!

Twin Minnow

A

EG-143

This new lure has been designed and created by our principal Michael Tsai, who is forever developing and thinking of new ideas and better ways to catch fishing using lures. This new Twin Minnow, is specially designed for superior casting, and to imitate small baitfish or school of baitfish. The unusual shape assists casting distance and has a magnificent rolling swim action. Suitable for many species, both fresh and saltwater, these new Twin Minnow will yet again put Strike Pro in the fore of lure innovation in our industry.

Heron Crack

■ Ideale per contenere sostanze odorose e per poter essere appesantito grazie al suo serbatoio a chiusura regolabile. Senza l'introduzione di sostanze odorose si consiglia di lasciare il serbatoio aperto; il corpo cavo amplificherà vibrazioni e suoni. Tutti i modelli "Crack" hanno queste caratteristiche.

■ Designed to contain scents and able to carry weights thanks to its twist open-close compartment. When no scent is fitted, the compartment should be left open, since the hollow body will amplify vibrations and sounds. All "Crack" models have these features.
