Street Krabby è uno dei manici di guadino tra i più compatti al mondo. Leggero e indossabile grazie alla tracolla con doppia regolazione, è disponibile nella versione da 3,5 mt. Come pure nella versione da 3 mt. Entrambi i modelli si presentano con un ingombro da chiuso di soli 60 cm. Dunque l' ideale per chi pratica lo street fishing e necessita di potersi spostare senza avere l' 'impiccio di poggiare sempre a terra il guadino rallentando anche l' azione di pesca stessa. Molto gradito anche da chi pesca dagli scogli al mare vista la robustezza della resina della quale è composto garantisce resistenza se sfregato su massi o pietre. Sugeriamo di abbinare testa gom-mata galleggiante MF-11E e MF-11E MINI.
