SWIMMING DANSA HOOK - DH-22 / NO.12323

- Ideal for casting jig or jig minnow
- Superior strength with TAFF WIRE

JIGGER LIGHT DANSA HAYAGAKE - JD-22 / NO.11767

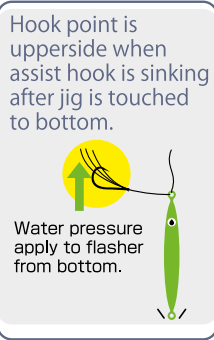

- TAFF WIRE JF-22 hook with tangle-less fluorocarbon core assist line
- Unbalanced hook position for more hook-up ratio
- Flash penetration with straight hook point

NAGEWAZA REPLACEMENT HOOK - WH-01 / NO.12308

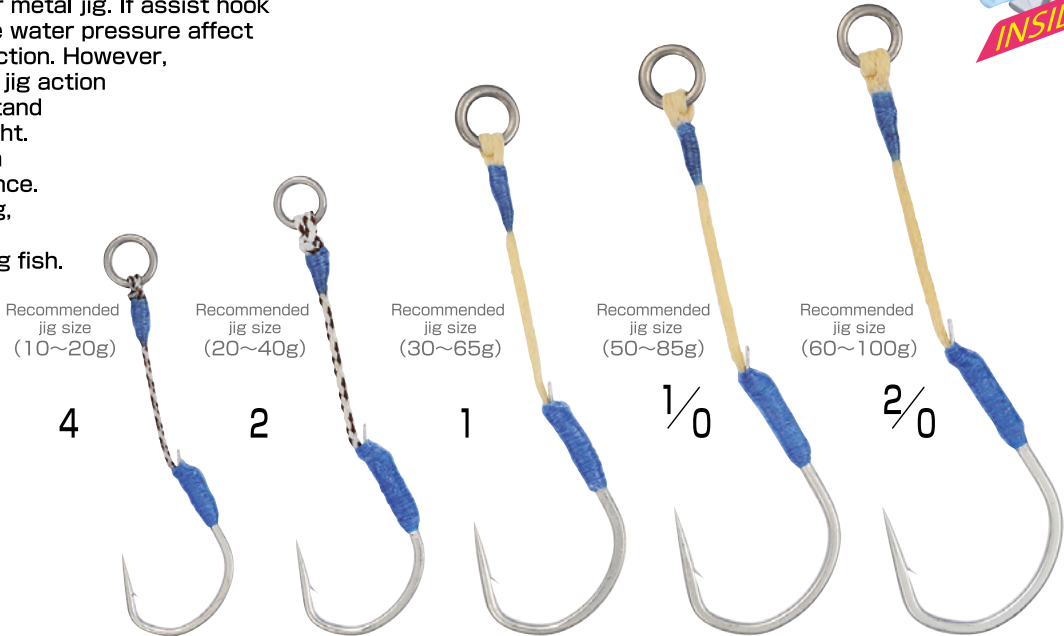

Light shore jigging special assist hook

Best balance assist hook setting for standard light shore jigging  
Genuine assist hook of "NAGEWAZA JIG" series.  
Extreme sharp hook point catch all bites.  
Very light assist hook to make a best jig action.  
Stuckless assist hook with original flashers

NAGEWAZA POWER REPLACEMENT HOOK - WH-02 / NO.12314

Big fish special light shore jigging assist hook  
Even light metal jig, 10kg class of a big fish bite it from shore.  
The setting balance of assist hook and metal jig is more important for more lighter metal jig. If assist hook is too thick balance, more water pressure affect it and prevent metal jig action. However, if assist hook is too light, jig action is good, but it does not stand power of the big fish's fight.  
"WH-02" is designed with less water pressure balance.  
Even light balance setting, "TAFF WIRE" hook make possible to fight with a big fish.

COMPLETE ASSIST - SF-40 / NO.11773

- SJF-41TN hook with tangle-less fluorocarbon core assist line
- Wide range jigging single assist hook for adjusting variety target

5145 #1/16oz - #1/8oz	

5124 COLOR: 03 - 04 - 11 - 31 - 40

JR SHAD 4.2" - 105MM / NO. 5589

JR SHAD concept is "Not too strong roll action" and "Shad tail for vertical and bottom use". Ordinal shad tail is high appeal softbait, but fish do not like too high appeal action sometimes, especially in high pressure field. JR SHAD's long and thin root of the tail absorb the shad tail vibration and prevent the body makes strong roll action. Also, due to a root of the tail is flexible and long, the shad tail catch water well, even drop shot rig or bottom bumping.

*Recommended hook	
5132 #1/0 - #3/0	Qty/box <b>6</b>
5164 #3/0	
5145 #1/16oz - #1/8oz

5589 COLOR: 03 - 04 - 11 - 28 - 29

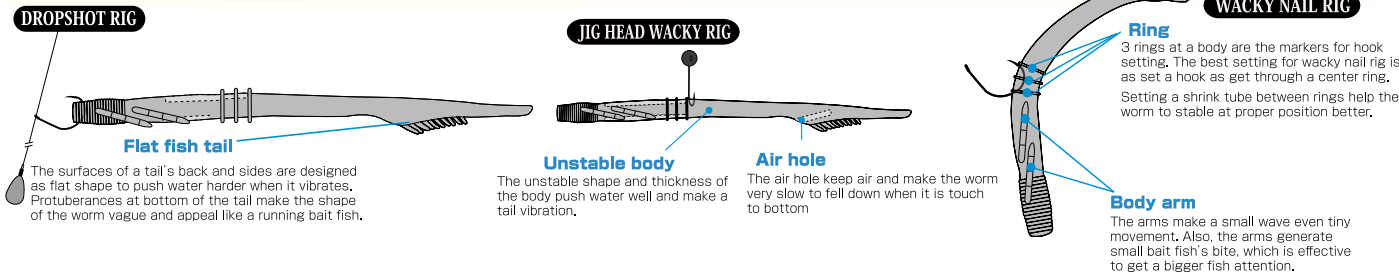

JR CRAWLER 5.7" - 143MM / NO. 5590

JR CRAWLER's concept is the straight worm, which push water hard and can imagine worm action in the water easily. Made with heavier soft material. Shape and thickness are not stable from head to tail. So that JR CRAWLER push water hard and its tail vibrate left and right. Also, JR CRAWLER has 4 arms. These 4 thin long arms move like a small worm and get bite from smaller bait fish. The bigger fish come closer to the JR CRAWLER to see what smaller fishes are biting, and they find irregularly moving JR CRAWLER, which is picking by smaller bait fish, and bite it.

\*Recommended hook  
5167 #1/0 - #3/0  
5172P #4 - #1  
Qty/box 6

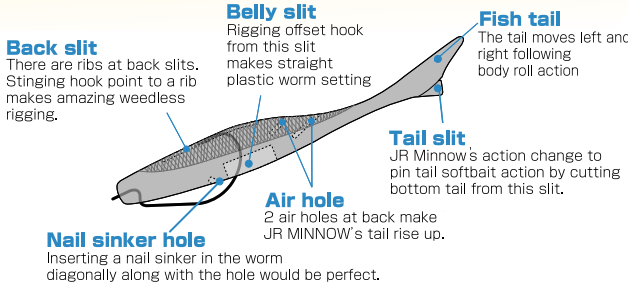

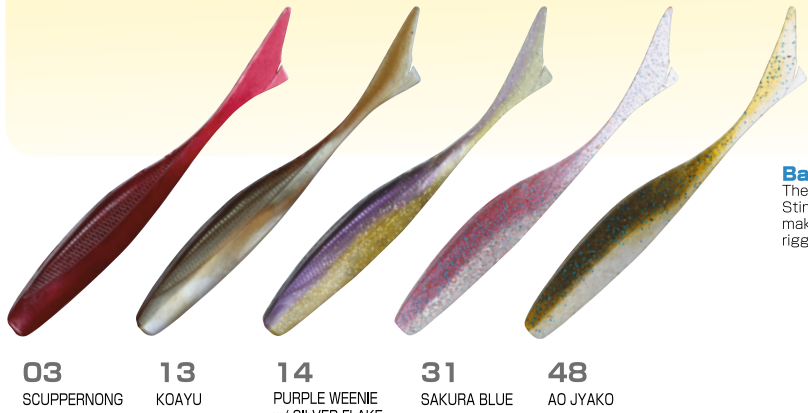

5590 COLOR: 13 - 912

JR MINNOW 4.5" - 113MM / NO. 5591

JR MINNOW's concept is "Minnow shaped soft bait for all range". JR MINNOW is able to set various rigs and various action for covering all range. Flat side body is easy to make rolling action and appeal to fish with its action and flashing. 2 air holes near tail at back make the worm stand up diagonally, like when real small fish picking a bait at bottom. Also, the fish tail moves left and right following roll action not only when worm is swimming, but also moves very naturally with water current when JR MINNOW stayed

\*Recommended hook

5591 COLOR: 03 - 13 - 14 - 31 - 48

YUKI BUG 3.3" - 85MM / NO. 5594

Down size version of YUKI BUG to match in plenty of fields and sizes of fish. This is not just size down. Even size is get smaller, not to kill "High appeal" power of YUKI BUG concept as much as possible, the body is redesigned as a little bit fatter and arm shape is changed to waves more while falling. As well as YB-115, YB-85 is also compatible of "High appeal action" with "Natural action", in this smaller body.

\*Recommended hook  
5132 #1/0  
5177 #2 - #1/0  
4147  
Qty/box 6

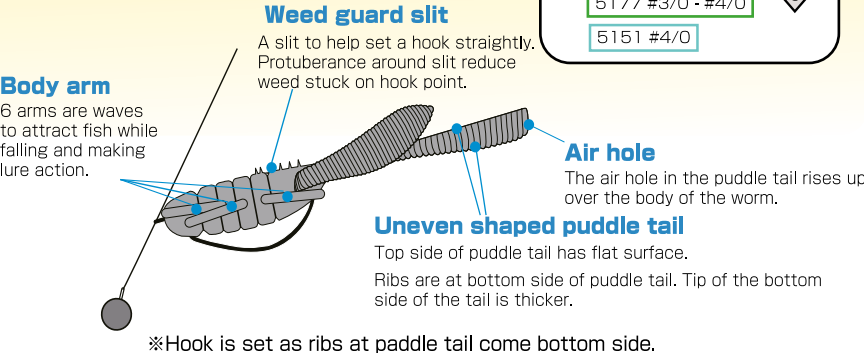

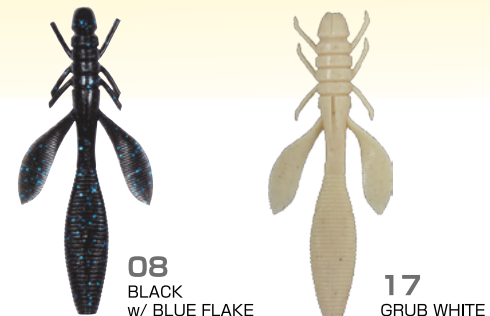

5594 COLOR: 01 - 15 - 18

YUKI BUG 4.3" - 110MM / NO. 5595

Original size of YUKI BUG. YUKI BUG's concept is compatible of "High appeal action" with "Natural action". The tail is designed as flat surface for top side and with ribs for bottom side. Also, bottom side's tail tip is thicker. These shape differences of a puddle tail push water hard when make a rod action and "high appeal" to fish. When stop rod action, an air hole in the tip of the puddle tail make worm's body raise up. YUKI BUG's puddle tail catch even a little water current. Raised up tail moves "naturally" with water current and attract to fish even when giving no rod action.

\*Recommended hook

SHAKY WORM 6.5" - 160 MM. / No. 5596

The versatile SHAKY WORM is made from a unique "foam type" material that makes it buoyant, yet remains supple enough to exhibit tremendo us action when twitched. When rigged various ways, the presentation is a nose down/tail up orientation that even the wariest fish will find hard to resist. The SHAKY WORM can be bounced to twitched along the bottom with jig head, or fl oat up into the "strike zone" when Carolina rigging with Twist lock hook.

The Basic Hair Rig, tied with CARP TAFF hook, is the most popular and successful type of rig use for all sizes and types of carp. It offers secure bait holding properties and superb hooking capability to the carp fisherman because of its long length. It is suitable for fishing on muddy bottoms.
